

ABSTRACT

Bartkowiak Anna, *Analiza kompetencji rodziców w zakresie bezpieczeństwa dzieci w Internecie [An Analysis of Parents' Competences in Children Safety in the Internet]*. Kultura – Społeczeństwo – Edukacja nr 1, 2012, Poznań 2012, pp. 141–155, Adam Mickiewicz University Press. ISBN 978-83-232-2470-9

In the last three years there had been conducted several researches in Poland, which were related to competences and consciousness of parents in the field of children safety in the Internet, including the research conducted in 2010 in all European Union countries (the *EU Kids Online* research). In this paper the author focuses mainly on the comparison and synthesis of the result of these researches on safety of children in the Internet and parent's competences in that matter as well on presentation of conclusions drawn from these results. The paper also presents briefly types and classification of Internet threats, as well the analysis of activities and competences of children in the Web.
